Recommendations to IT Manager : In this section, provide recommendations, related to controls and/or compliance needs, that your IT manager could communicate to stakeholders to reduce risks to assets and improve Botium Toys' security posture.

A thorough review of the current highlighted issues needs to be done as soon as possible. In line with that, dedication of resources to ensure the compromised areas are secured and dealt with is of paramount importance to avoid repercussions that will affect business continuity negatively, as well as the reputation of the organization and the finances, as fines could be administered with the number of vulnerabilities currently available. The attack surface area is large and needs to be minimized.
